

ctf week 1

Flag 1

I got this flag by inspecting the code on the website. Within the admin login script section, I could read, in plaintext, the username and password for the admin credentials.

```
<!--Admin Login Script-->
<script>
const modal = document.getElementById('adminModal'); function openAdminModal() { modal.style.display = 'flex'; } function closeAdminModal() {
modal.style.display = 'none'; } window.onclick = function(event) { if (event.target === modal) { closeAdminModal(); } } function handleAdminLogin(event) {
event.preventDefault(); const username = document.getElementById('username').value; const password = document.getElementById('password').value; if
(username === 'Admin' && password === 'Tr33_L0V3r!') { fetch("/login", { method: "POST", body: JSON.stringify({ username: username, password: password }),
headers: { "Content-type": "application/json; charset=UTF-8" } }) .then(response => { window.location.reload(); }) .catch(error => {
console.error('Error:', error); alert('An error occurred during login.'); }); } else { alert('Invalid credentials.'); } }
</script>
```

After using the credentials (username === 'Admin' && password === 'Tr33_L0V3r!'), I was on the admin page. At the bottom of that page, there was an admin note, that included the flag: **osu{Tr33S3D_70_M33t_y0U}**

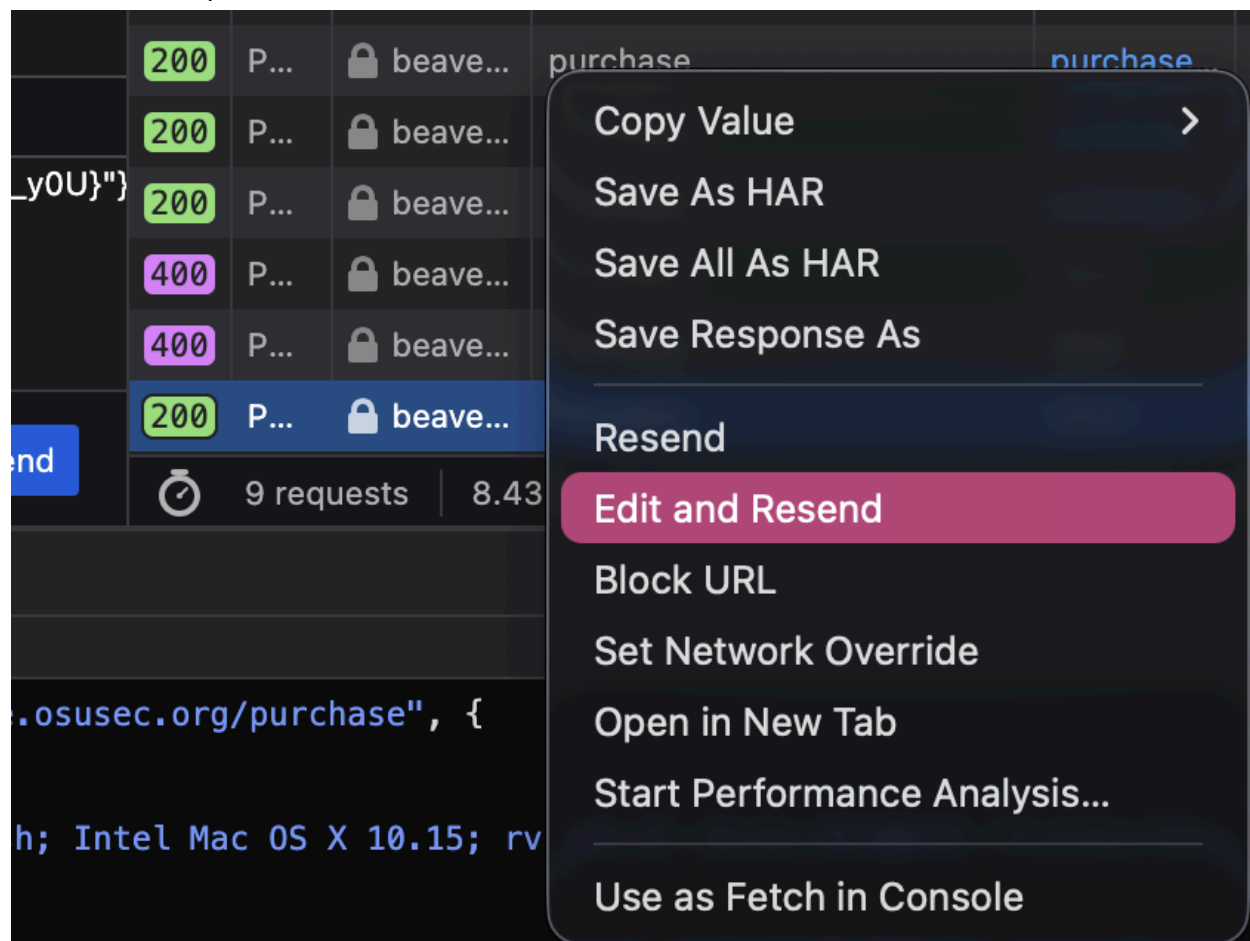

Flag 2

It took me a while to actually read that the previous flag easily led to the next step of the second flag. After reading that I could get a purchase for free and that the "Flag Tree" was unattainable with the amount I had, I figured that using the discount code could be used to buy the flag tree.

I first made a false purchase of the flag tree (which was denied). I needed to submit a request so that I could use the network tab to obtain the post request declaring the falseness of my

purchase. Then, I right-clicked that post request, scrolled to the bottom where I could “edit and resend” that request. I edited it to include the “free tree discount” and resent it.

This led to the confirmation code of the second flag and the successful purchase!!
